Rise Recovery helps teens, young adults and families overcome the effects of drugs and alcohol and partner with the community in education and prevention.
2021: A YEAR OF GROWTH THROUGH PROGRAMS & PARTNERSHIPS

As our world is changing, so is Rise Recovery, expanding substance use recovery services to meet the ever-changing need of our community and beyond. In 2021, we added a Veterans & Family Recovery program and Rise Clean Link, a telehealth program serving eleven underserved South Texas counties. In Fall 2021, we officially opened the doors to Rise Inspire Academy, San Antonio’s premier recovery high school. In December, we celebrated our first graduate, Colin Gerard!

For youth, it is critical to meet them where they are; we provided in-school recovery education and support services to nine San Antonio-area school districts through our YES (Youth Empowered by Sobriety) Program. YES is an immediate-entry program model that receives referrals for care through each Independent School District (ISD). Our primary goal is to influence and reform the school system’s current strategy for addressing substance and paraphernalia-related behaviors, which has historically been a purely disciplinary approach.

Youth mental health is at the forefront of national concern and key to our partnership with the Mobile Mental Wellness Collaborative, providing on-campus behavioral health prevention services at no cost to staff, students or their families. We also initiated the Youth Leadership program, educating students with hands-on projects and trainings so that they have the tools to lead their peers and advocate for mental health issues in the community.

2021 IMPACT

- **1,578 INDIVIDUALS RECEIVED PEER RECOVERY SUPPORT**
  - Youth
  - Young Adults
  - Family Members

- **9 BEXAR COUNTY SCHOOL DISTRICTS RECEIVED IN-SCHOOL RECOVERY EDUCATION AND SUPPORT**

- **17,887 RECOVERY SERVICES WERE PROVIDED THROUGH GROUP MEETINGS, ONE-ON-ONE COACHING, EDUCATION CLASSES AND SOCIAL ACTIVITIES**

- **11 COUNTIES WERE ADDED TO OUR RECOVERY REACH THROUGH THE RISE CLEAN LINK TELEHEALTH PROGRAM**

- **100% OF AT-RISK YOUTH DEMONSTRATED A DECREASE IN DISCIPLINARY REFERRALS**

- **90% OF PEOPLE SERVED REPORTED A REDUCTION IN FAMILY VIOLENCE**
For 45 years, Rise Recovery has been a sanctuary for recovery, providing care and comfort to the body, mind and spirit. Even through monumental change, we have maintained a steadfast focus on the youth, young adults and families we serve, as we help them overcome the challenges faced by drugs and alcohol. This is the very core of our mission. On the journey of recovery, change is the only constant, and the pace of change continues to accelerate.

There has never been a more critical time to plan for the future; to lay down an aspirational path that ensures continued success for years to come. We envision an always accessible community filled with strength, hope, and love in which all can reach our full potential, finding joy and purpose in our sustained recovery. Our vision includes:

- Setting the national standard for participants in sustained recovery
- Striving to eliminate all barriers to recovery and increase equitable access to care
- Reaching more families year in and year out
- Becoming a nationally-recognized peer recovery model with an accredited Recovery High School
- Establishing partnerships with every high school in San Antonio
- Becoming a key point of civic pride; the average family says, “we’re really lucky to have Rise Recovery in our city.”

We challenge ourselves to strengthen our partnerships, build collaborative relationships with nonprofit, academic and community partners, and expand our reach by leveraging a new campus, advances in evidence-based practices and technology. Together, we are creating the nationwide model of recovery for the future.
Rise Recovery’s programs are a vital component to help decrease the rate of challenging social issues that are astoundingly associated with the disease of addiction: domestic violence, child abuse, criminality and homelessness. The new two-acre, 22,000 square-foot campus located at the heart of San Antonio on 2803 Mossrock, ensures that Rise Recovery will continue to save and transform lives, restore families, and change the paradigm of drug and alcohol recovery in San Antonio for years to come. This $8.5 million investment was a long-time vision of the Rise Recovery Board of Trustees and Capital Campaign Committee and made a reality due to the generosity and dedication to youth and families by community leaders like Susan Naylor, Harvey E. Najim Charitable Trust, Kronkosky Charitable Foundation, Mabee Foundation, Mays Family Foundation, Zachry Corporation, Greehey Family Foundation, and Valero Energy Foundation.
