# I WAS BROKEN AND DESPERATE FOR A PROGRAM LIKE RISE INSPIRE ACADEMY FOR MY CHILD.

I am a parent of a teenager that has struggled with substance use disorder. At Rise Inspire Academy, my daughter is able to focus on her academics while receiving care to sustain her sobriety. As a parent, I also receive support through Rise Recovery at no cost. Rise has helped me continue to navigate a healthy path for myself and my family.

RISE INSPIRE ACADEMY

A High School for
Students Seeking Recovery
from Drugs and Alcohol

## RISE INSPIRE ACADEMY IS SAN ANTONIO'S FIRST RECOVERY HIGH SCHOOL

Rise Inspire Academy is the very first recovery high school in San Antonio. Recovery high schools are considered one of the most impactful and effective ways to support youth in drug and alcohol recovery. We combine innovative learning methods with a strong peer culture in which all students identify as being active in their recovery and committed to supporting their fellow students as they face challenges associated with early recovery.

"We recognize that recovery can be hard, and your history doesn't have to define you. Rise Inspire Academy ensures these youth have the resources necessary to get them help and hope, so that they can overcome obstacles with our team behind them, every step of the way."

Evita Morin, CEO at Rise Recovery
